Time Capsule

The following pages provide an opportunity for you to create your own time capsule, which you can access at a future date. Unlike other time capsules that are designed to be opened by future generations, this one is designed just for future you.

To create some structure in your capsule, we have divided the questions into three sections: He Tangata / People, He Wāhi / Places and Aronga / Purpose. The information recorded in these sections illustrates how we tend to identify ourselves in our globalised world. Each section contains a 'Why' and a 'How' to explain the significance of the questions and how they can be completed.

It's important to know that this information will not be perfect or complete, as there is no way you can write everything down that makes you unique. Your responses to the questions will be different depending on your mood or even the time of day you answer the them. These pages are for you to play with and explore how your thinking changes over time.
